# Edit Village Specific Format

In one instance the data exceeds the layout (B. Khamvongsa 1705027). To adjust the data to fit, Chrome has an 'Inspect' option to modify the HTML code. Therefore, some knowledge of HTML is required to edit and reformat.

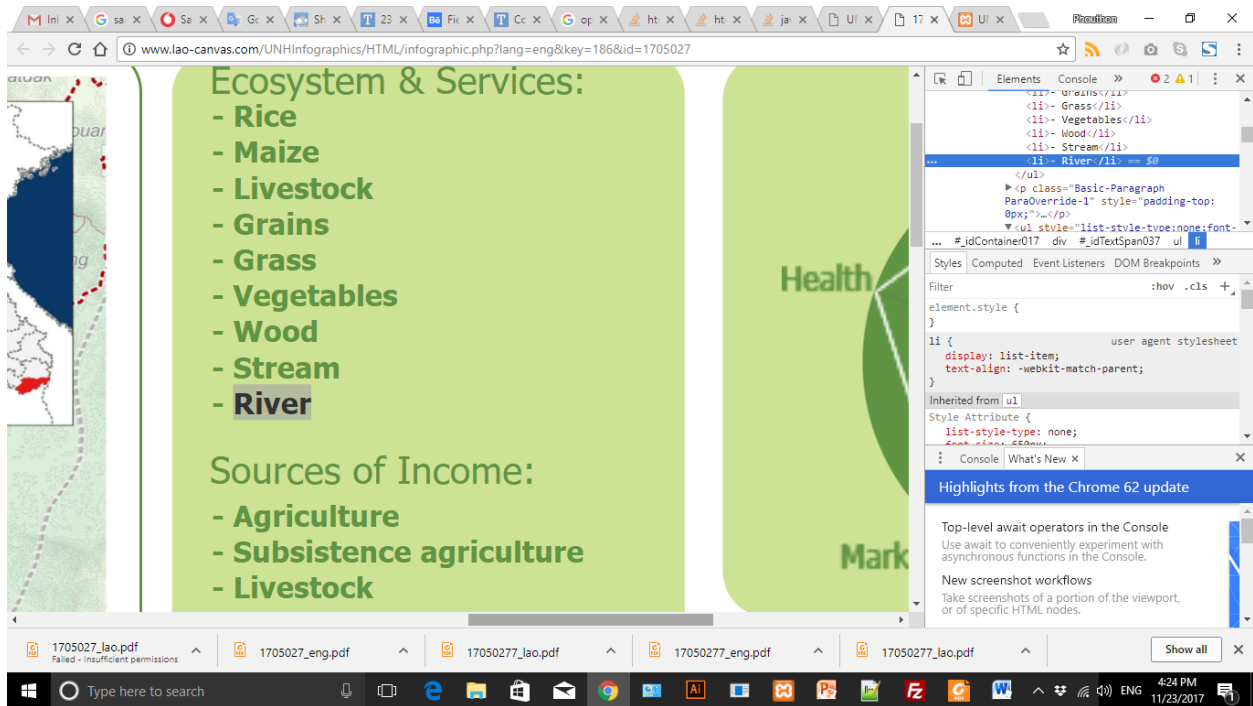

In this case the 'Ecosystem', 'Source of Income', and 'Education' spacing can be adjusted to move the text up. To do so, highlight any item in the 'Ecosystem' list and right mouse click.

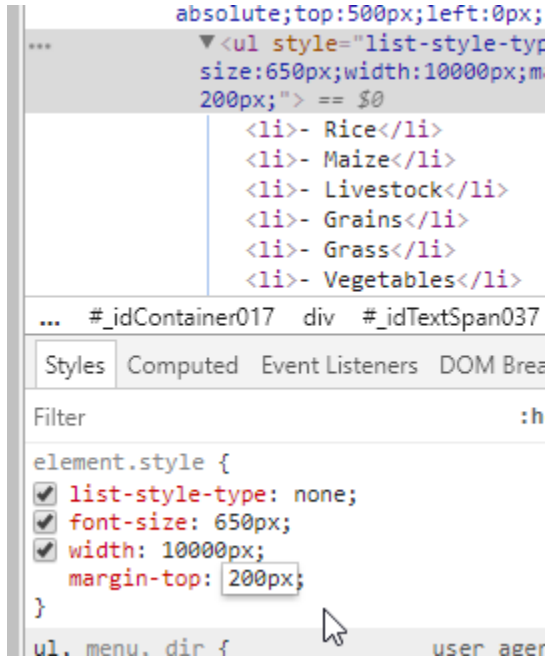

In this example, the word 'River' is highlighted to right click and select 'Inspect'.

A window pane with the HTML code will open with 'River' highlighted in the code.

Scroll up to the <UL> element and add "margin-top: 200px;" in the element.style.

Repeat the steps for the Source of Income and Education list.

Sources of Income:

- **Agriculture**
- **Subsistence agriculture**
- **Livestock**
- **Manufacture**
- **Trade**
- **Sell NTFP**

Education:

- **Kindergarten**
- **Primary**
- **High school**

Now that the text has been adjusted to fit the layout close the 'Inspect' window pane and generate the PDF.

Note: When making the do not zoom the view. Keep it at 100% to maintain the A4 size to retain the quality in PDF.
