

# B. Meouhuomeung (1702043) Samakxixay District, Attapeu

## DEMOGRAPHICS

Population (2017):  
**2598**  
Main ethnic group:  
**Yahen**  
Other ethnic group:  
**Lao, Hrlak (Alak)**  
Religion:  
**Buddhism, Animism**

## Ecosystem & Services:

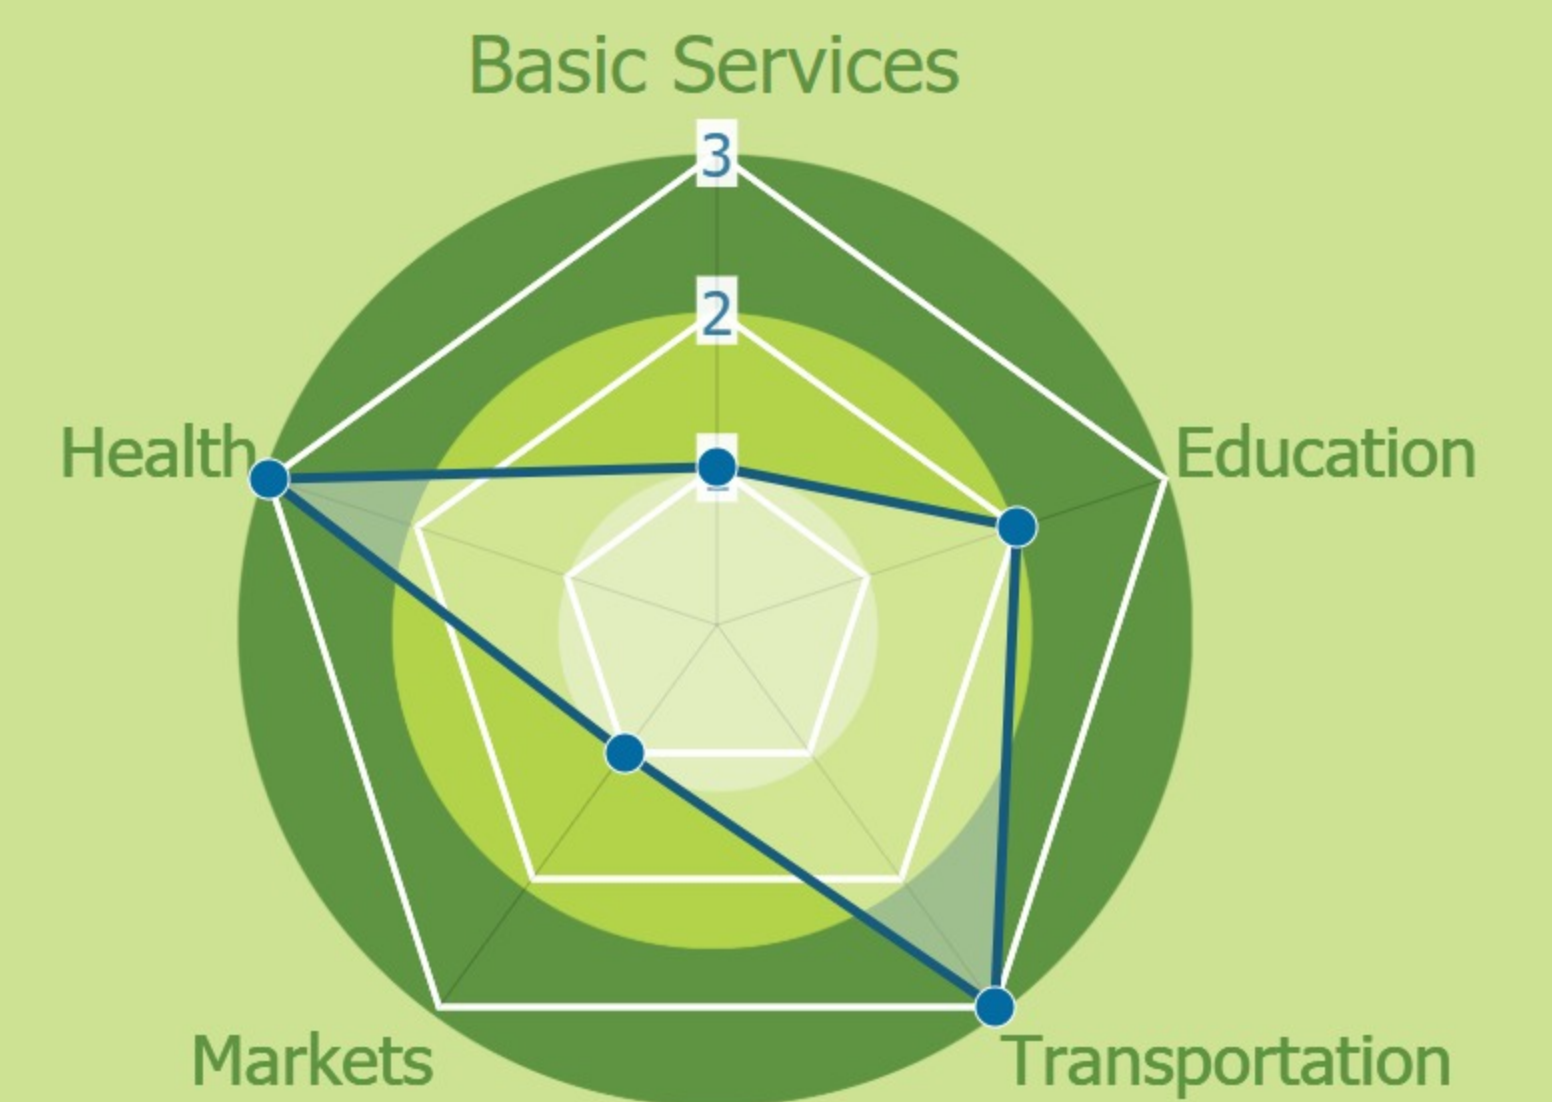

- Rice
- Maize
- Livestock
- Wood

## Sources of Income:

- Agriculture
- Subsistence agriculture
- Livestock
- Trade
- Casual labor
- NTFP; Fishery

## Education:

- Primary incomplete
- Primary
- High school

## HEALTH

- |                      |                       |
|----------------------|-----------------------|
| <b>Water-bourne:</b> | <b>Vector-bourne:</b> |
| Allergies            | Dengue                |
| Diarrhea             | Encephalitis          |
| Eye                  | Malaria               |
| Skin                 | Scrub typhus          |

## CLIMATE CHANGE & DISASTERS

### Changes over the past 30 years

### DRY SEASON

Slight increase

Significant decrease

### WET SEASON

Slight increase

Slight Decrease

### IMPACTS:

Health / Water / Agriculture / Livestock

## ENVIRONMENTAL ISSUES

### Deforestation impacts

- |                              |                            |
|------------------------------|----------------------------|
| + Industrial develop (+)     | - More flooding (-)        |
| + Charcoal production (+)    | - Loss of biodiversity (-) |
| + More agricultural land (+) | - Erosion (-)              |
|                              | - Less food sources (-)    |

### Hydropower impacts

No positive impact

- Changing river flows (-)
- Water availability (-)

### Mining impacts

No mining activity

## VULNERABILITY INDEX

**Hazard Intensity: 2.37**

**Sensitivity: 1.9**

**Ranking: 4.5**

## PRIORITIES & NEEDS

1. Construct water facility (borehole)
2. Diversify livelihoods

**UN HABITAT**  
FOR A BETTER URBAN FUTURE
